

# Create Account & Log In Guide

Step-by-step screenshots of a customer creating an account and logging in, and an admin creating a customer over the phone.

**Source note:** Every screenshot on this page is captured directly from the running application by `scripts/screenshots/customer-journey.spec.ts` and `scripts/screenshots/admin-create-customer.spec.ts` against the isolated test database — run `npm run screenshots` to regenerate them, then `npm run guide:pdf` to re-export this page as `docs/customer-guide.pdf`.

Vaccination record verification before every stay

Individual feeding plans and dietary requirements

Secure online booking and payment

Automated booking confirmations by email

Owner portal to manage all bookings

Admin dashboard for staff management

## How It Works

From first visit to drop-off in three simple steps.

### 01

#### Register Online

Create your account, add your dog's details, and upload vaccination records in minutes.

### 02

#### Make a Booking

Choose a service and your dates, check live availability, and pay securely online.

### 03

#### Drop Off & Relax

Bring your dog to us and enjoy your time away — we'll handle everything else and keep you updated.

## A Complete Online Management System

Every stay is managed through our secure online platform — owners book and track everything from their own portal, while our staff run daily care from a dedicated dashboard.

- ✓ Book, amend, and cancel stays from your owner portal
- ✓ Track vaccination status and get expiry reminders
- ✓ Automatic confirmations, receipts, and check-in reminders
- ✓ Staff manage arrivals, care tasks, and payments in one dashboard
